The Advisory Board participated in a Board workshop at the Academy on September 14, 2009. The workshop was conducted by the Archdiocese of Newark. The purpose of the workshop was to familiarize Board members with the role and responsibilities of the Board and to facilitate a discussion about its meaning and purpose. The Board determined that it was appropriate to undergo the workshop, in light of the change in Academy administration and Board leadership positions. The workshop was a positive event, and will assist the Board in defining its goals and objectives for the upcoming year.
