Respect, Love, and Education Through Christ

Ms. Riescher's eighth grade religion class has been learning about the countries in the Middle East. This area of the world is not only important today but it was important at the time of Jesus Christ. The Middle East is where our religion originated. The students felt it was important to know this area in order to fully

understand the hardships of the apostles. What were the difficulties the apostles encountered? How did the terrain of the different areas impede their mission to spread the word of Jesus Christ? The students made physical maps of the area.
