

Saint Rose of Lima Academy

Respect, Love, and Education Through Christ

Space Science 2010 Webcast

The 6th and 8th grades had the first of a series of web casts sponsored by the *YES I Can - Work in Space Project*. The first speaker was Dr. Tom, a theoretical astrophysicist, and an educational consultant for both the Canadian Space Agency and Space Center Houston.

For the next three months, our students will collaborate via blog and webcast with astronauts, scientists, engineers, and other classes from around the world. The succeeding astronauts' webcasts will enable students to find out how astronauts train and prepare for space missions, and what it's really like to live and work in space from astronauts who have been there. They will also have the opportunity to learn about the construction and operation of the International Space Station (ISS) with robotics engineers from the Canadian Space Agency. This is one of ongoing programs of the SRLA MS Science curriculum's global classroom that brings together students and scientists worldwide online to learn and share their findings around the world based on central topics of study.

SCHOLASTIC BOOK FAIR

Please join **St. Rose of Lima Academy** at the grand opening of this year's **Scholastic Book Fair** on Sunday, November 7th after 9:00 Mass from 10:00 a.m. to 2 p.m. The Book Fair continues, Monday, November 8th - Thursday, November 11th, 8:30 a.m. thru 2:30 p.m. Our late night is Thursday from 6 p.m. to 8 p.m.
